

MOHAMED MAHMOUD HASSAN KAMEL

Accountant | Payment Operations | Financial Reporting

PROFESSIONAL SUMMARY

Detail-oriented accountant based in Cairo with practical experience in payment operations, transaction review, invoice control, account reconciliation, and financial reporting. Experienced in fast-paced financial services environments including Aman, Fawry, and Amwaly, with strong Excel skills and a reliable approach to accuracy and deadlines.

WORK EXPERIENCE

Accountant

Aman for E-Payments - Cairo, Egypt | Jan 2023 - Present

- Review daily payment and collection transactions and prepare organized summaries for finance review.
- Match invoices, receipts, and internal records to identify missing or duplicated transactions.
- Support monthly reconciliation activities and follow up on differences with operations teams.
- Prepare Excel-based reports for daily balances, collections, and pending items.
- Maintain accurate filing of financial documents and support audit preparation when required.

Junior Accountant

Fawry - Cairo, Egypt | Jun 2021 - Dec 2022

- Assisted with recording accounting entries related to digital payments and merchant transactions.
- Checked transaction reports and coordinated with internal departments to resolve discrepancies.
- Updated customer and merchant account records using internal systems and Excel sheets.
- Supported month-end closing tasks by preparing reports and validating financial data.

Accounting Assistant

Amwaly Financial Services - Cairo, Egypt | Sep 2020 - May 2021

- Organized invoices, receipts, bank statements, and payment records for finance processing.
- Prepared expense summaries and helped track outstanding payments.
- Entered financial data accurately and reviewed documents before submission to senior accountants.

EDUCATION

Bachelor of Commerce - Accounting

Cairo University - Cairo, Egypt | 2020

Relevant coursework: Financial Accounting, Cost Accounting, Auditing, Taxation, Business Administration.

SELECTED ACHIEVEMENTS

- Improved Excel tracking sheets used for daily transaction checks and account follow-up.
- Helped reduce reporting delays by organizing repeated finance tasks into clear daily checklists.
- Maintained accurate records for high-volume payment and collection workflows.
